

Center for Aging Research and Education (CARE) Undergraduate Scholar Fund

To advance the preparation of our nursing workforce to care for older adults, the Center for Aging Research and Education (CARE) Scholar Fund will award one \$1,000 scholarship annually to an undergraduate nursing student entering their junior or senior year of study at the UW-Madison School of Nursing. Scholarships will be awarded to those demonstrating a passion for nursing care of older adults and a commitment to advancing their preparation to care for older adults during their undergraduate education.

Interested applicants should indicate interest on the School of Nursing common scholarship application form and specifically describe experience and interest in care of older adults in their statement of professional goals.

Apply here: <http://go.wisc.edu/my9la5>

For more information, contact Kim Nolet (kanolet@wisc.edu).

Center for Aging Research & Education (CARE) Research Award

To support applied research with a goal of direct and positive impact on the care of older adults, CARE is offering one award to a graduate nursing student. The award will be given in order to support data collection, research project development, or professional development. The maximum award is \$3,000 and calls are issued each fall.
